

Director of Central Intelligence
Washington, D. C. 20505

Analysis

9 August 1979

The Honorable Malcolm Wallop
United States Senate
Washington, D.C. 20510

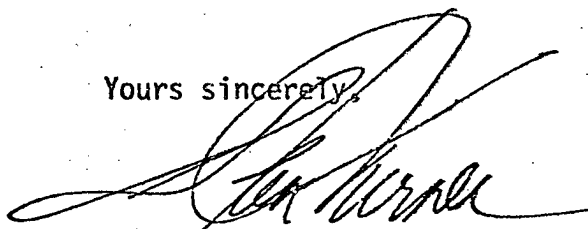

Dear Senator Wallop:

Recalling your strong interest in ensuring that dissenting views see the light of day in the Intelligence Community, I think you will be interested in Contra, a new journal we publish. It is a classified forum for our intelligence analysts and those in other Agency directorates to present their individual views, particularly those which may be not widely held within the Community or, if so, only tentatively.

This small but important step will encourage our analysts and others to bring their individual ideas and views to the fore, no matter how unconventional or unique they may seem.

Warm regards.

Yours sincerely,

STANSFIELD TURNER
